

**Sixth Form – Laptop and Tablet Usage**

The Laptop Program provides the Ardenne High School (AHS) community with a tool to expand its members’ learning opportunities. It opens limitless possibilities; users may go virtually anywhere and interact with anyone. With such opportunity comes responsibility. Use of the AHS network and its related computer facilities is afforded to members of the school community. The school provides a set of guidelines for acceptable use, and any student who is in violation of these guidelines will be punished and have this privilege removed.

How students use their laptops or tablets reflects their personal character. The Students’ Handbook states that all members of the school community must uphold the values of honesty and integrity. All members of the AHS community must understand that this tool should be used with good judgment, common sense, and integrity.

**Laptop/Tablet Security**

**N.B: Students bringing their laptops or tablets to school do so at their own risk. Ardenne High School will not be held liable for any damage or loss to these devices.**

Students are responsible for their laptops or tablets. During the school day, students must have these devices with them; they must never be left unattended. Students involved in after-school activities need to ensure that their laptops or tablets are secured.

-----

I understand and will abide by the above guidelines. I further understand that any violation is unethical and may result in the loss of my network and/or laptop privileges as well as other disciplinary action.

Student’s Name: .....

Student’s Signature: .....

Date: ..... Form Class: .....

As the parent or guardian of this student, I have reviewed and discussed the AHS laptop guideline usage with my child. I understand that network access is designed for educational purposes. I recognize that, although the school network has an Internet filter, it may be impossible to entirely restrict access to all controversial materials.

I understand that my child’s photo and/or work (writings, drawings, etc.) may occasionally be published on the Internet and may be accessible on a World Wide Web (as approved by the school).
